## CAMROSE, GILLIES AND HACKWOOD PARTNERSHIP (CGH) PATIENT PARTICIPATION GROUP

With a growing need for mental health support for the patient population, CGH have put in place a mental health team and resources, which include the following:

- Employed a GP, Dr. Webster, specialising in complex mental health patient care;
- A mental health nurse (CPN), to support a range of issues from acute crisis to longer term problems;
- MIND clinics run twice weekly for signposting patients and self help support with a Mental Health Adviser from MIND;
- Mental Health Multi-disciplinary Teams (MDT) working with local mental health services and consultants;
- Focus on mental health through staff communications, and training in understanding of the Mental Capacity Act (MCA) legislation;
- Shared resources for healthcare professionals on available mental health support for patients during the pandemic.

In addition, CGH are working with Southern Health to recruit a further Mental Health clinician. We would encourage patients who need support to contact the surgery for appointments, and to make full use of their services.

The PPG are delighted to announce that Matt Holman from Simpila Mental Health is guest speaker at our first PPG/Patient Open Meeting, on a date to be confirmed as soon as Covid uncertainty allows. We will invite patients to come and meet the PPG over coffee and cake, and hear Matt talk about mental health, with a chance to ask him, and the PPG, any questions.

Excellent self help resources we can recommend are: <https://www.simpila.com/news-articles-and-resources/> and <https://happily.com/>

**Covid Vaccinations for House Bound Patients**, who are vulnerable, have mobility problems, and are unable to attend clinics, can be arranged by contacting the CGH surgery by e-consult or telephone for a home visit.
